ABOUT US

DPG – Delemar for Processed Glass is a new factory established in 2021 under the umbrella of Delemar Industrial Group to fill the gap between the Egyptian market and worldwide standards/quality in processed glass. With world-class machinery and a team of experts dedicated to excellence and a production capacity of over 1 million square meters annually, we are committed to providing our customers with high-quality processed glass products and services while contributing to the growth and development of the Egyptian economy.

BEST QUALITY

100% GUARANTEED

MISSION

To deliver premium quality products and provide a high-quality service to all our clients following the strict guidelines to achieve it.

VISION

We aim to be one of the most trusted suppliers and first choice in the industry by providing excellent quality glass products, services, and solutions at competitive prices.

VALUES

Accountability : We take responsibility for individual and collective actions.

Integrity : We do the right thing.

Quality : Creating a difference in the quality of construction while meeting the international quality standards.

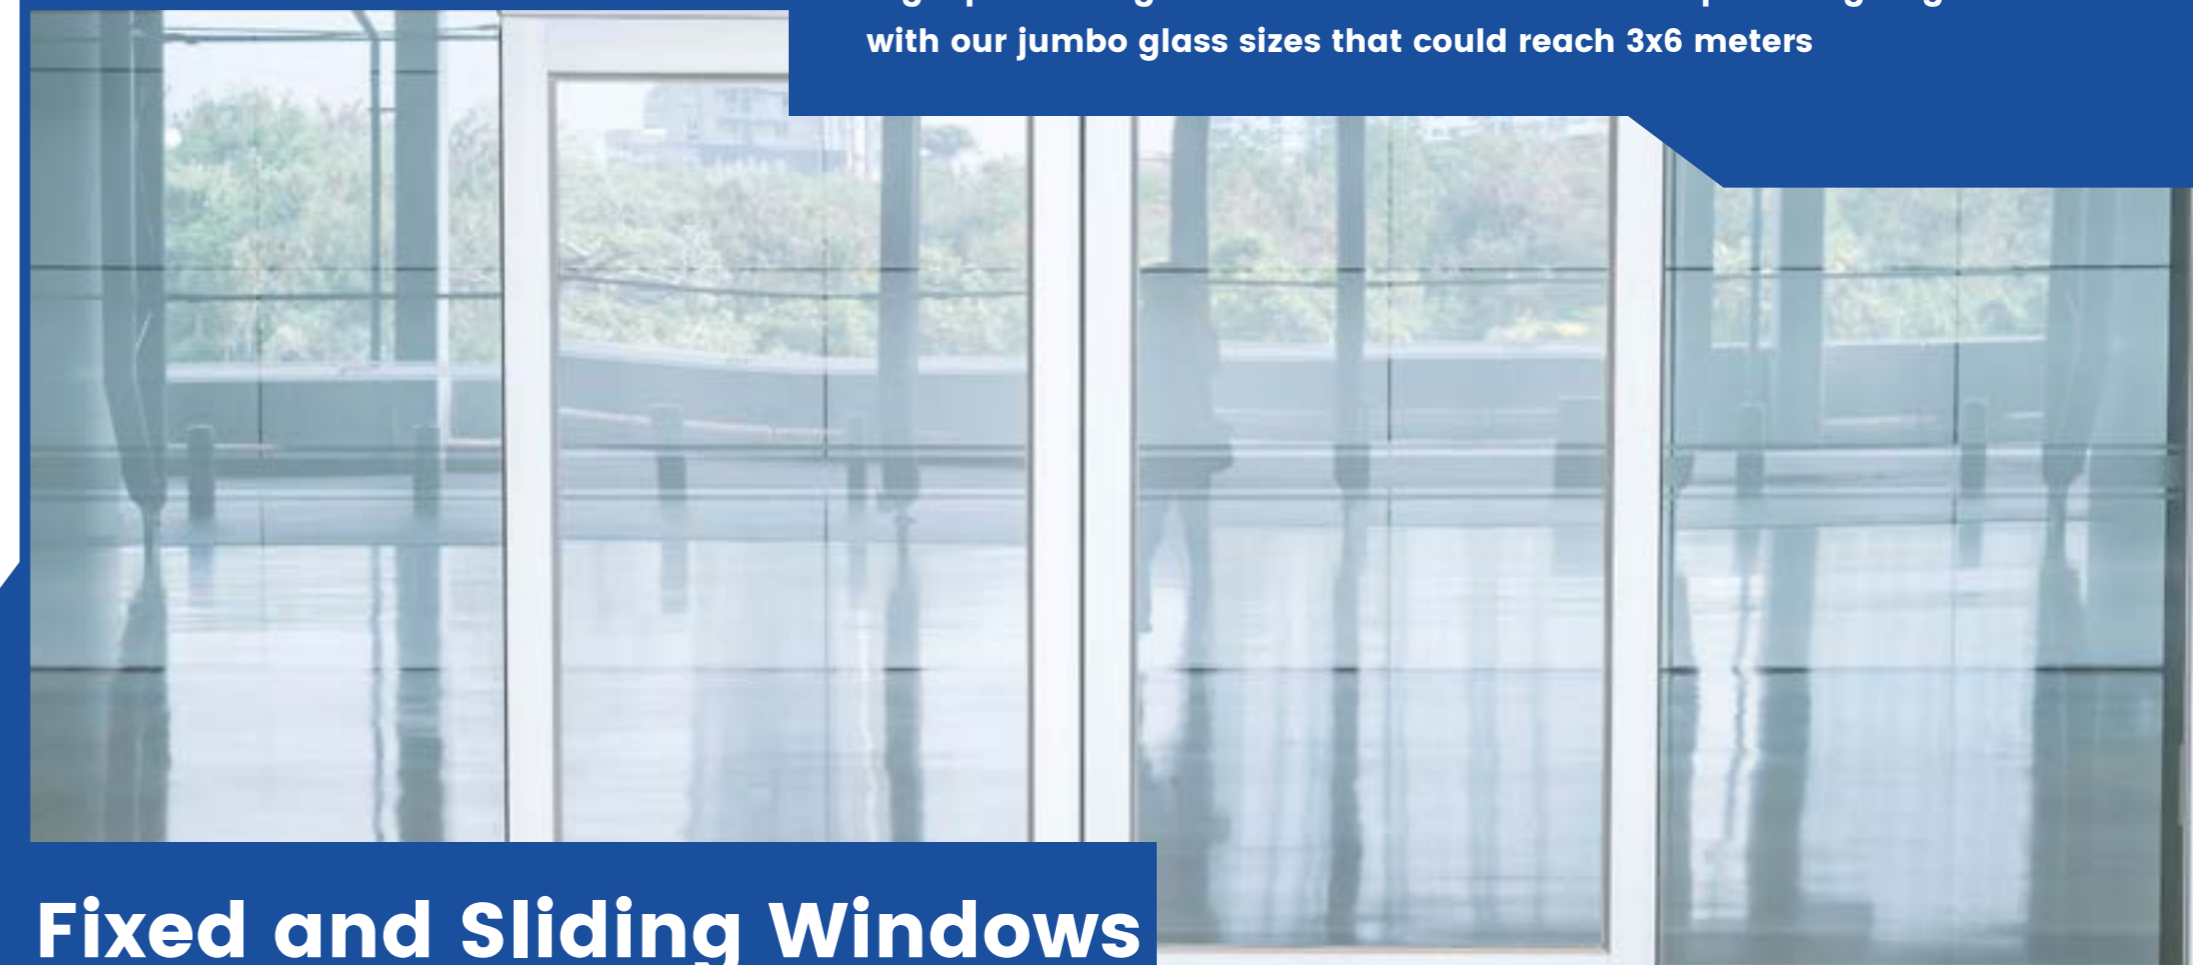

FACADES

(Structural Glazing and Curtain Walls)

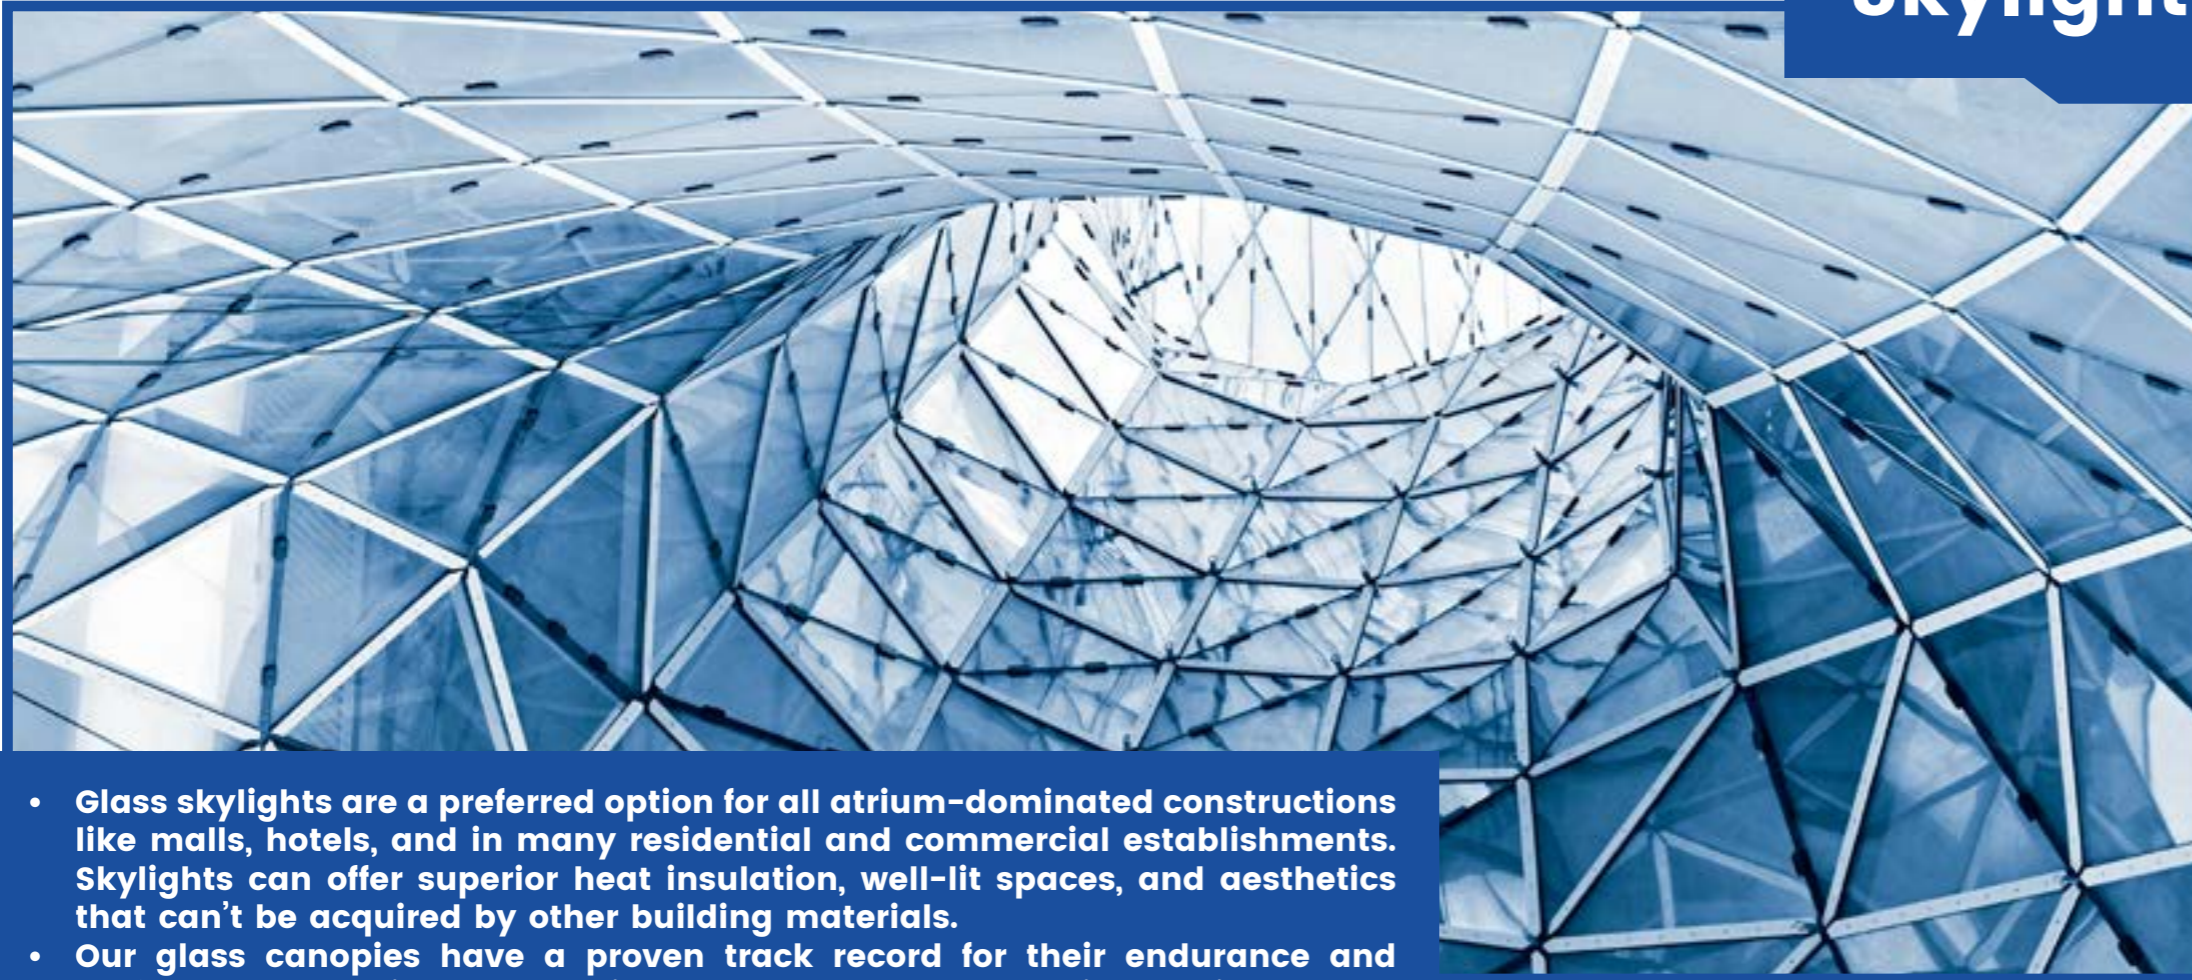

- High-end glass material suppliers such as Saint Gobain, Sphinx Glass, Guardain and AGC
- Best raw materials from Kuraray™, Solutia™, Dow™
- Unsurpassed design support
- MEETING INTERNATIONAL STANDARDS (ASTM AND EN STANDARDS)

- Extreme heat and thermal insulation
- High-performing windows with minimum metal providing large vision areas with our jumbo glass sizes that could reach 3x6 meters

Fixed and Sliding Windows

Skylight

- Glass skylights are a preferred option for all atrium-dominated constructions like malls, hotels, and in many residential and commercial establishments. Skylights can offer superior heat insulation, well-lit spaces, and aesthetics that can't be acquired by other building materials.
- Our glass canopies have a proven track record for their endurance and performance. Adding colored interlayers creates dynamic shading and a statement piece in your building design.

- Glass rails are an essential and desirable element of modern home designs. Our railings are constructed with the highest quality interlayers which ensure clarity and durability.

Glass HandRails and Shower Cabinets

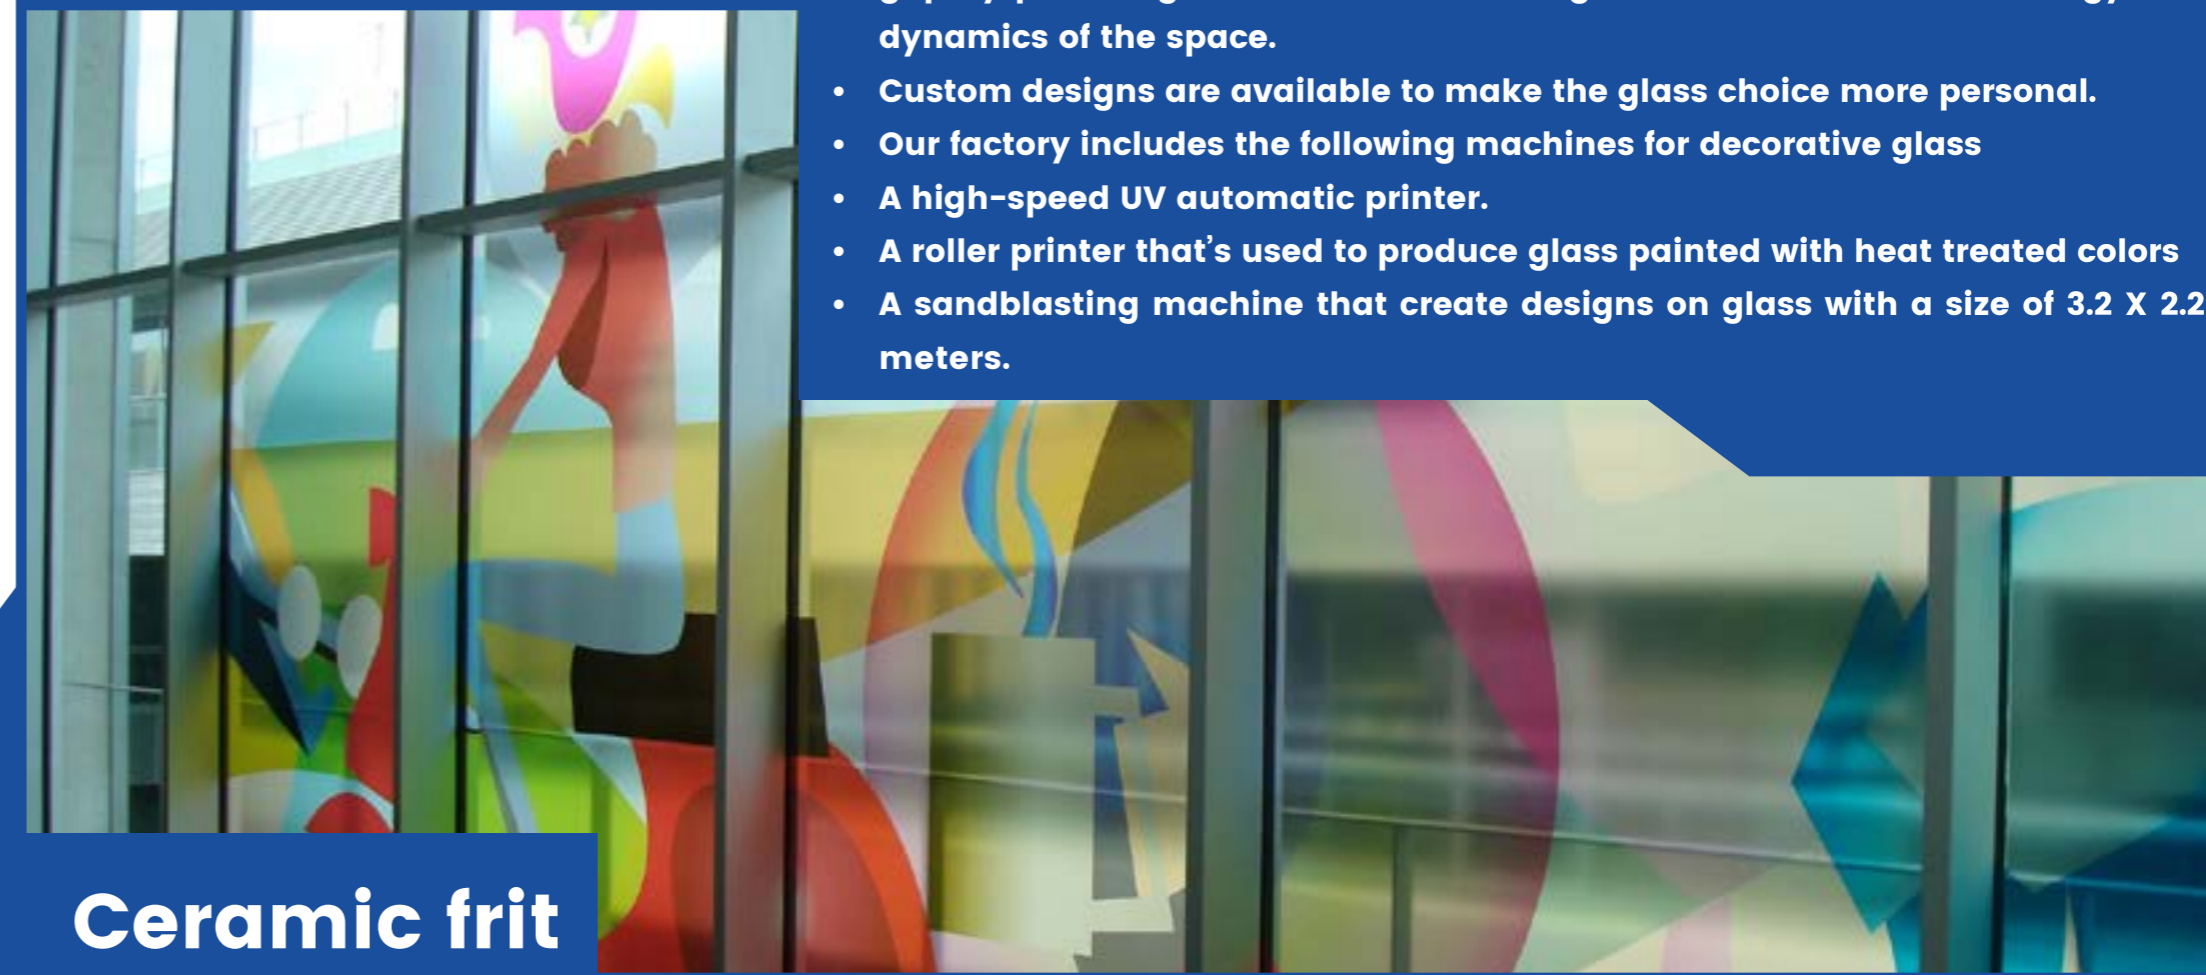

Interior Glass

(Partitions and Doors)

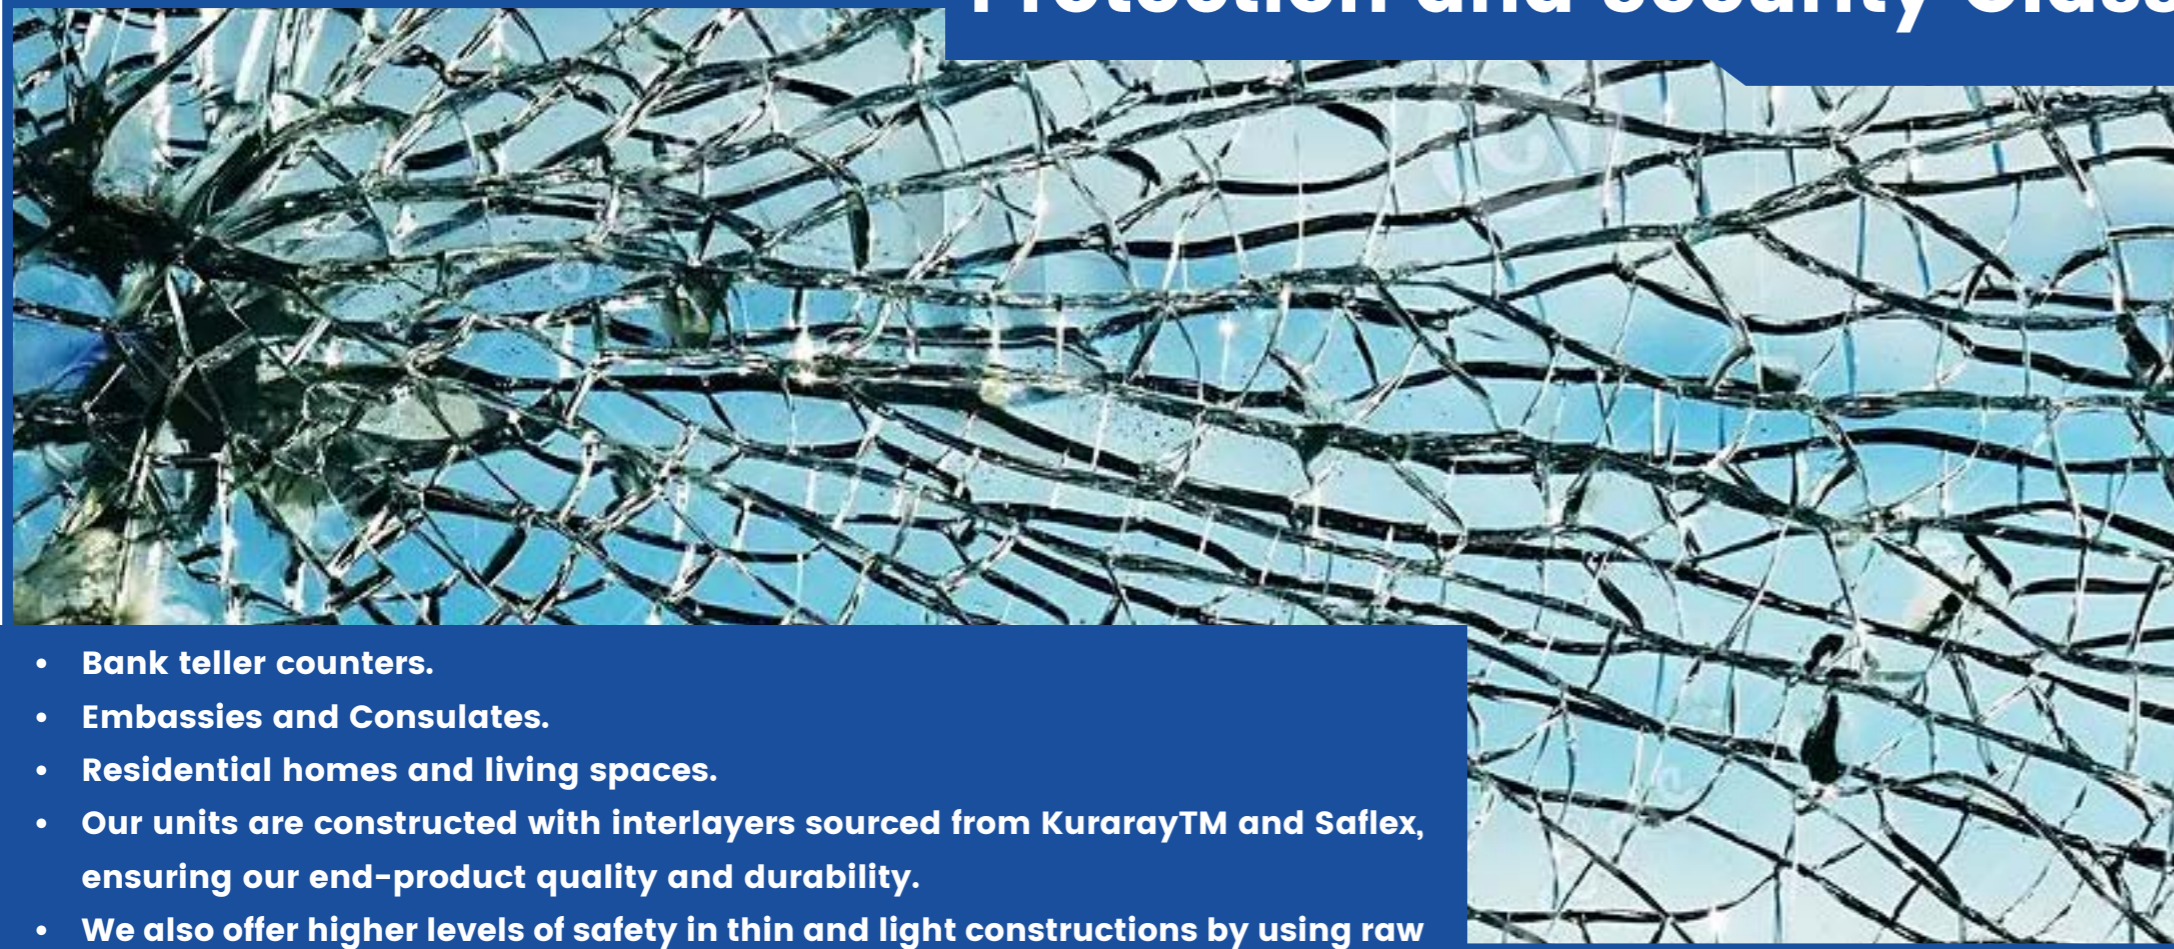

- We offer suspended and bolted facades.
- Jumbo glass sizes with minimal metal cutters, large vision areas and thermal insulation.
- Our high-end technology used for edge polishing and hole fabrication results in stunning suspended and spider-fixed glass walls.
- Complex designs are also achievable. We provide our clients with design support to help them create their dream projects.

Ceramic frit

- Glass has become architects and interior designers' solution to dividing space without obstructing the flow of natural light. Therefore, we bridged the market gap by providing textured and colored glass that enhances the energy and dynamics of the space.
- Custom designs are available to make the glass choice more personal.
- Our factory includes the following machines for decorative glass
- A high-speed UV automatic printer.
- A roller printer that's used to produce glass painted with heat treated colors
- A sandblasting machine that create designs on glass with a size of 3.2 X 2.2 meters.

Protection and Security Glass

- Bank teller counters.
- Embassies and Consulates.
- Residential homes and living spaces.
- Our units are constructed with interlayers sourced from Kuraray™ and Saflex, ensuring our end-product quality and durability.
- We also offer higher levels of safety in thin and light constructions by using raw materials from SentryGlas™.
- Available with special sound control interlayers for enhanced acoustic insulation.

Curved Glass

- Curved glass provides openness to a space or room, making many interior designers include it as an essential part of their designs
- We offer three types of curved glass
- Toughened Curved Glass (Impact Resistant)

OUR WORLD-CLASS MACHINES

Bystronic IG line with robot -Size 2700x5000mm

Bottero Cutting Line 3300x6000mm - Italy

DPG (DELEMAR FOR PROCESSED GLASS)

CNC Working Center -Bavilloni -Italy

Waterjet Cutting Machine -Italy -Size 3300x1800mm

Glaston RC Furnace Jumbo Size 2800x6000mm (Finland)

**ROBOTIC ARMS
FOR PRECISE HANDLING**

CIRTFICATES

Nariman Hotel (EL MONTAZAH)

- 7000 m²
- Glass combination (6mm Vistalite Clear + 6mm Iplus Solid + 6mm Clear)
- Glass combination (Lamination 8mm Clear + 8mm Clear)
- facade maker : Eagle Company

Mazareen (NEW ALAMEIN)

- 13,000 m²
- Glass combination (6mm Sunguard DS Blue + 6mm Clear)
- facade maker : Smart Window company

Enna Walk (5TH DISTRICT)

- 7000 m²
- Glass combination (6mm Isolite Euro Grey + 6mm Iplus Solid + 6mm Clear)
- facade maker : Arabella Company

The Address (NEW CAIRO)

- 7000 m²
- Glass combination (6mm Sunguard DS Grey+ 6mm Clear)
- facade maker : System Contracting Company

360 Business Park
(5TH DISTRICT)

- 14.000m²
- Glass combination (6mm Iplus Solid + 6mm Clear)
- facade maker : Amaco Company

knowledge city
(5TH DISTRICT)

- 8000 m²
- Glass combination (6mm Stopray Vision 40T + 8mm Clear)
- facade maker : Amaco Company

AL-madina University
(EL-SHEROUK CITY)

- 10,000 m²
- Glass combination (6mm Reflectasol Blue + 6mm Iplus Solid)
- facade maker : El Motaheda Company

Village Gate
(5TH DISTRICT)

- 3000 m²
- Glass combination (6mm Vistalite Euro Grey+ 6mm Clear)
- facade maker : System Contracting Company

DPG (DELEMAR FOR PROCESSED GLASS)

-Cairo Airport Gsr el swies 350 m²

Glass Combination (6mm Vistalite Sky blue + 6mm Clear)

-Toshiba Al Araby 1500 m²

Glass Combination (6mm Vista Sky Blue + 6mm I plus Solid)

- Sheraton 1600 m²

Glass Combination (6mm Vistalite Euro Grey + 6mm I plus Solid + 6mm Energylite + 6mm clear)

-GIU Project 3000 m²

Glass Combination (6mm Vistalite Sky blue + 6mm Clear)
